

# 6<sup>th</sup> Australasian Natural Hazards Management Conference 2012

From warnings to effective response and recovery

Call for papers  
(due 1 April 2012)

University of Canterbury, Christchurch, New Zealand  
21–22 August 2012

Optional Workshops 20, 23 & 24 August 2012

The conference will provide a forum to discuss the integration of hazard information into effective risk management, including:

- Applying hazard information to best practice planning
- Developing effective warning systems
- Improved response and recovery from events
- Creating resilient communities through integrating science into practice

Our target audience is: Emergency managers, planners, risk assessors, asset and utility managers, natural hazards researchers and scientists.
